Re: Response to EPA letter dated February 21, 2008 entitled GENERAL NOTICE OF
POTENTIAL LIABILITY for Yosemite Creek Superfund Site

Dear Mr. Reiner:

Intel Corporation (Intel) is hereby responding to the referenced letter in accordance with the time frame requested. We understand that a PRP steering committee is in the process of being formed however we are not actively involved in that process due to our very limited, if any, past involvement in the Bay Area Drum site. As a result, Intel does not intend to be a part of the PRP steering committee. Additionally, even though Intel entered into a de minimis settlement for the Bay Area Drum site, Intel is not ready to agree that we should be a PRP at the Yosemite Creek Superfund site. Intel is in the process of reviewing internal records at this time.

Please direct all future correspondence regarding this matter to my attention at:
